

PART ONE – GENERAL INFORMATION AND STATISTICS

I. Questions for non-Contracting States

- 1) Please indicate why your State is not a Contracting State to the Service Convention (select as many answers as are relevant):
- [] The availability of possibilities for transmission of documents for service abroad, proof of service abroad and protection of the interests of plaintiffs and defendants under domestic law, bilateral or regional agreements, treaties or instruments means that so far it has not appeared to your authorities that there would be added value in becoming a Party to the Service Convention
 - [] The number of cross-border cases that require the service abroad of judicial or extrajudicial documents has so far been limited and has not required a global framework
 - [] There are legal obstacles in your domestic legal system that prevent your State from becoming a party to the Convention – if so, please specify what these are:
 - [] Your State considers that there are specific issues arising out of the Service Convention (*e.g.*, costs, the absence of specific deadlines for the transmission and execution of requests for service, the absence of a specific provision on how to determine the date of service, the need, where requested, to translate documents to be served in accordance with Art. 5(3), etc.) which dissuade your State from joining the Service Convention – please explain:
 - [] Your State does not have the means or resources to properly implement the Service Convention
 - [X] The question of becoming a Party to the Convention has never been examined in detail
 - [] Other reason – please explain:

Please see answer to Question 3.

No major difficulties have been encountered in practice of international judicial cooperation in civil and commercial matters by Montenegrin courts regarding the cross-border service of documents.

- 2) Please forward a list of any bilateral or regional agreements, treaties or instruments to which your State is a party and that provide rules for the transmission of documents to be served abroad, for proof of service, and for the protection of the interests of plaintiffs and defendants:

The bases for legal assistance in civil matters are bilateral or multilateral treaties, as well as the national legislation. Some issues such as service of documents on our nationals are regulated by consular conventions.

In Montenegrin practice of international legal assistance in civil matters, the most important multilateral agreement are the Convention on Civil Procedure (1954), the Hague Convention on International Access to Justice (1980), (in the scope which is in force) the Hague Convention on Civil Procedure (1905), the Convention Abolishing the Requirement of Legalisation for Foreign Public Documents (1961), and the Hague Convention on the Civil Aspects of International Child Abduction (1980).

Factual Reciprocity

The field of international legal assistance is wide – if there is no reciprocity based on agreement, legal assistance is provided based on factual reciprocity. In these situations, competent authorities act in accordance with national legislation – primarily the Law on Civil Procedure (Official Gazette of the Republic of Montenegro, Nos. 22/04 and 76/06). Relevant provisions:

"Article 173

The courts shall provide legal assistance to foreign courts in cases envisaged by an international agreement and if there is reciprocity on rendering of legal assistance. In case of doubt regarding the existence of reciprocity, the Ministry of Justice shall give an explanation.

A court shall deny legal assistance to a foreign court if the performance of the action requested is contrary to the public order. In such case, the court competent for provision of legal assistance shall ex officio submit the request for legal assistance to the Supreme Court to make a final decision.

The provision of Article 172 paragraph 2 of this Law shall apply also to the handling of requests of a foreign court.

Article 174

The courts shall render legal assistance to foreign courts in the manner stipulated by domestic law. The action, which is the subject of the request of a foreign court, may also be carried out in the manner requested by the foreign court if such action is not contrary to the public order.

Article 175

Unless otherwise is provided for by an international agreement, the courts shall act on requests for legal assistance of foreign courts only if they were delivered through diplomatic channels and if the request and supporting documents have been written in the language officially used in court or if they are accompanied with a certified translation in that language.

Article 176

Unless otherwise is provided for by an international agreement, the requests for legal assistance of domestic courts shall be delivered to foreign courts through diplomatic channels. The requests and supporting documents must be written in the language of the requested state or accompanied with a certified translation in that language."

- 3) Is your State currently studying the Service Convention or does your State envisage studying it with a view to becoming a State Party in the near future?

YES – please specify (status of considerations in your State, etc.):

Two years after Montenegro regained independence, an intensive work on the structural reform of the system is ongoing, including the setting-up of new legal solutions, adoption of new legislation and amendments to existing legislation, simultaneously to the efforts in the field of harmonization of domestic legislation with the EU legislation, with the aim to get closer to the candidate status and, subsequently, to the accession. In that complex and long-lasting process, all relevant international instruments are being considered without exceptions. To the same effect, additionally to those ratified at the level of the State Union of Serbia and Montenegro, other Conventions are also being gradually ratified. Inter alia, the segment of international legal assistance is also being reformed, new legal solutions are introduced and the Conventions which have not been ratified until now are being ratified, and soon the issue of accession to this Convention and to other Hague Conventions to which Montenegro has not accessed yet will be considered.

C. Statistics

Main Channel of Transmission (Art. 3)

Requests for Service – Incoming

- 9) The following questions relate to the number of requests for service *addressed to your State* under the Service Convention.
 - a. Please complete the following table to indicate how many *incoming* requests for service the Central Authority(ies) of your State received in each of the past five years under the main channel of transmission. Please also note, if possible for each year, the country(ies) from which your State received the most requests for service.

| 2003 | 2004 | 2005 | 2006 | 2007 |
|-----------|-----------|-----------|-----------|-----------|
| Number: | Number: | Number: | Number: | Number: |
| State(s): | State(s): | State(s): | State(s): | State(s): |

- b. Of the total amount of requests for service received in 2007, please divide these depending on the method of service that was used by your State and complete the following table with respect to the time that lapsed between the Central Authority(ies) of your State receiving a request for service and the relevant authority of your State forwarding the Certificate of service to the applicant in the requesting State.

For example, if your State executed 12 requests for service using personal service and the entire process took less than two months in each case, please write the number "12" in the relevant box. The total amount of incoming requests for service that your State received in the past year should therefore equal the sum of the figures appearing in the sub-totals line below:

| Method of service | Less than 2 months | Between 2 and 4 months | Between 4 and 6 months | Between 6 and 12 months | More than 12 months | Returned un-executed (Art. 13) | Cases currently pending |
|--|--------------------|------------------------|------------------------|-------------------------|---------------------|--------------------------------|-------------------------|
| Formal service (Art. 5(1) a)) | | | | | | | |
| Service by a particular method (Art. 5(1) b)) ⁴ | | | | | | | |
| Informal delivery (Art. 5(2)) | | | | | | | |
| Sub-totals: | | | | | | | |

Requests for Service – Outgoing

10) The following questions relate to the number of requests for service *sent by the forwarding authorities of your State* under the Service Convention. These questions are likely to require some consultation with the (main) forwarding authorities in your State that (may) have previously forwarded requests for service:

- a. Please complete the following table to indicate how many *outgoing* requests for service the forwarding authorities of your State have forwarded to Central Authorities of other States Parties in the past five years. If possible, please also note the country(ies) to which your State sent the most requests for service for each year listed below.

| 2003 | 2004 | 2005 | 2006 | 2007 |
|-----------|-----------|-----------|-----------|-----------|
| Number: | Number: | Number: | Number: | Number: |
| State(s): | State(s): | State(s): | State(s): | State(s): |

- b. Of the total amount of requests for service sent in 2007, please complete the following table with respect to the *time that lapsed* between the forwarding authority of your State sending a request for service and the applicant receiving the Certificate of Service from the requested State. Please also divide these depending on the method of service that was used in the requested State.

For example, if your State is made aware that six requests for service were sent from your State and the entire process took less than two months in each case, please write the number "6" in the relevant box. The total amount of outgoing requests for service that your State is aware were sent in the past year should therefore equal the sum of the figures appearing in the sub-totals line below:

⁴ See Question 29) b. for an explanation as to the meaning of Art. 5(1) b) – please adopt that meaning to fill in the chart above, independently of your response to Question 29) b. (i).

| Method of service | Less than 2 months | Between 2 and 4 months | Between 4 and 6 months | Between 6 and 12 months | More than 12 months | Returned un-executed (Art. 13) | Cases currently pending |

| Formal service (Art. 5(1) a)) | | | | | | | |
| Service by a particular method (Art. 5(1) b)) ⁵ | | | | | | | |
| Informal delivery (Art. 5(2)) | | | | | | | |
| Sub-totals: | | | | | | | |

III. The main channel of transmission

A. Forwarding Authority (Art. 3)

27) In Conclusion and Recommendation No 49, the 2003 Special Commission advised that in case of doubt as to the competence of the forwarding authority, rather than rejecting the request for service, the authorities in the requested State should seek to confirm that competence by either consulting the HCCH website or by making informal enquiries, including by way of e-mail.

NO

- YES – please specify whether or not the authorities of your State followed Conclusion and Recommendation No 49 of the 2003 Special Commission:

See also Question 33) regarding the use of modern technologies, in particular sub-questions b. and c.

B. Methods of service (Art. 5)

- 29) Please complete:
- a. Formal service (Art. 5(1) a))
- (i) Please describe the methods of service prescribed by the domestic law of your State to effect formal service of documents upon persons who are within the territory of your State (Art. 5(1) a)):
- (ii) Please indicate the method(s) generally used by your State when service is requested under Article 5(1) a) and no preference has been indicated as to the manner in which service should be effected (*e.g.*, personal service, by post, etc. See also below Question 29) c. (ii) and (iii)). Please also indicate your State's reasons behind any such default choice:
- b. Service by a particular method (Art. 5(1) b))
- Pursuant to Article 5(1) b), service may be effected by a particular method requested by the applicant unless such a method is incompatible with the law

of the requested State (requests for the use of a particular method are fairly rare in practice, see para. 132 of the Service Handbook). The purpose of this provision is to enable requests for a particular method of service *contemplated by the law of the requesting State* to be applied in the requested State so that the validity requirements for service in the requesting State are met. However, it appears that some forwarding authorities are systematically requesting that their request for service be executed under Article 5(1) *b*) even in circumstances where they intend to have service effected by a method that is recognised under the laws of the *requested* State (such as personal service). The Permanent Bureau believes that this practice is erroneous and that such a request should instead be made and specified under Article 5(1) *a*).

- (i) Does your State agree with the position of the Permanent Bureau that a request for a method of service that is recognised by the law of the requested State (such as personal service) may be specified and effected under Article 5(1) *a*) and that Article 5(1) *b*) serves a separate purpose?

YES

NO – please explain why:

- (ii) If relevant, please describe the particular methods of service which your forwarding authorities have requested other States to use under Article 5(1) *b*) and whether these particular methods have in fact been used to effect service:

- (iii) If relevant, please describe the particular methods of service by which your State has been requested to effect service under Article 5(1) *b*) and whether these particular methods have in fact been used to effect service:

c. Informal delivery (Art. 5(2))

C. Translation requirements (Art. 5(3))

30) Please indicate if your State, as a requested State, imposes any language or translation requirements for documents to be served in your State under Article 5(1) (see Conclusions and Recommendations Nos 67 and 68 of the 2003 Special Commission):

YES – please indicate what these requirements are, in each of the following set of circumstances:

E. Modern Technologies

33) In Conclusions and Recommendations Nos 60 to 62, the 2003 Special Commission noted that the Service Convention does not on its terms prevent or prescribe the use of modern technologies to assist in further improving the operation of the Convention and that States Parties should explore all ways in which they can use modern technology. In Conclusion and Recommendation No 63, a variety of steps were identified for the exploration and use of modern technologies: in

communications between a requesting party and a forwarding authority, in communications between a forwarding authority and a Central Authority of a requested State, and in the retransmission of the certificate of execution by the Central Authority or the designated authority (Art. 6). In light of these Conclusions, and in the context of the main channel of transmission, please comment on the following (see also below Part Three, Section II. C.):

- a. Does the law of your State, as a requesting State, allow for documents to be forwarded *from a requesting party to a forwarding authority* by fax, e-mail or a similar technology?

IV. Alternative Channels of Transmission (Arts 8, 9, 10)

A. Translation requirements

- 34) In Conclusion and Recommendation No 65, the 2003 Special Commission recognised that whilst no translation is required under the Service Convention for documents transmitted under the alternative channels of transmission, in isolated cases, translations are sometimes required in these circumstances by the domestic law of States. Does the domestic law of your State impose translation requirements on documents that are transmitted for service through an alternative channel of transmission?

NO

YES – please provide to the Permanent Bureau all relevant information pertaining to these internal legal requirements and to which alternative channel they relate. If this information is not in either French or English then a translation into one of these languages would be appreciated:

B. Model Form

- 35) The Fourteenth Session of the HCCH (held in 1980) recommended that the part of the Model Form that contains the “Summary”, accompanied by the “Warning”, not only be used under the main channel of transmission but also under the alternative channels of transmission of the Service Convention (the Recommendation and the accompanying Report established by Gustaf Möller are available on the “Service Section” of the HCCH website (< www.hcch.net >)). Please indicate whether the forwarding authorities in your State systematically send the “Summary” accompanied by the “Warning” when requests for service are sent abroad using an alternative channel of transmission.

YES

NO – why not?

- 36) The Permanent Bureau approves and encourages the practice of certain States to return the Certificate to the applicant even if transmission of the request for service occurred via an alternative channel of transmission provided for in Article 10 *b)* and *c)* (see para. 119 of the Service Handbook). This practice may even be extended to Article 10 *a)*, depending on the postal mail service used in the State of destination. Is it a practice within your State, as a State of destination, to use the “Certificate” part of the Model Form and to transmit this to the applicant in the

State of origin when the transmission of the request for service occurred under one of the alternative channels of transmission contained within Article 10 *a)*, *b)* and *c)*?

YES, the Certificate is transmitted to the applicant when the transmission of the request for service occurred under Article 10 *a)* – please provide further details:

 - YES – please explain:

Please go to Question 45).

If your State does hold an opposition, please go to Question 47).

VI. Protection of the interests of the Plaintiff and Defendant (Arts 15 and 16)

- 50) When a writ of summons or an equivalent document has been transmitted abroad for the purpose of service under the Service Convention, and the defendant has not appeared, Article 15(1) requires States not to give judgment unless certain requirements have been met. Nonetheless, and subject to States' declarations on this matter, a judge may give judgment if the conditions specified in Article 15(2) are fulfilled. One of these conditions is Article 15(2) c) which states that "no certificate *of any kind* has been received, even though every reasonable effort has been made to obtain it through the competent authorities of the State addressed" [emphasis added]. Please comment on the interpretation in your State of the expression "no certificate *of any kind*". In particular, would your State, as a requesting State, consider that the receipt of a certificate that stated that *no service* has occurred could nevertheless trigger the application of Article 15(2)?
- [] YES, the receipt of a certificate that states that no service has occurred may trigger the application of Article 15(2) (if all the other conditions are fulfilled).
- [] NO, the receipt of a certificate that states that no service has occurred may not trigger the application of Article 15(2) – please explain why:
- 51) If a requesting State has made a declaration in accordance with Article 15(2) and considers that all conditions of Article 15(2) have been fulfilled and accordingly enters a default judgment, would your State, as a requested State, recognise and enforce the resulting judgment in these circumstances (assuming that all other conditions for the recognition and enforcement of the judgment are fulfilled)?

Not applicable (my State made a declaration under Art. 15(2))

54) If your State has not made a declaration under Article 16(3), please explain:

a. why your State has not made a declaration:

b. whether or not your State is assessing the possibility of making a declaration:

VII. Date of service

55) The Service Convention does not include a provision that determines the date of service (*i.e.*, the precise moment when the documents have actually been or are deemed to have been served). As a result, it is for the domestic law of the State(s) involved to determine the date of service.

a. How is the date of service of documents determined in your State:

(i) in relation with the execution of a request for service forwarded under the main channel of transmission (please also specify whether your State relies on the date mentioned under point 1 of the Certificate to determine the actual date of service)?

(ii) when one of the alternative channels of transmission has been used?

b. When the law of your State requires that documents be served within a specific period, does the law of your State also provide effective means to protect the interests of the applicant when the documents have to be served abroad and are thus subject to the effective operation of authorities or professionals abroad (*e.g.*, does the law of your State provide for extended periods of service or for fictitious dates of service based on the date when the documents are sent or ready to be sent abroad, etc.; see Conclusion and Recommendation No 75 of the 2003 Special Commission)?

YES – please specify:

NO

c. Has the absence of an explicit rule on the date of service in the Convention caused any practical difficulties in your State?

YES – please specify:

NO

PART THREE – OTHER OPERATIONAL ISSUES

I. Model Form annexed to the Service Convention

A. Fillable PDF versions of the Model Form

- 56) The Permanent Bureau has made the Model Form annexed to the Convention available as a fillable PDF document on the HCCH website. This fillable version of the Model Form is currently available in English, French and in two trilingual versions (English / French / Ukrainian and English / French / Russian). These fillable forms have proven to be very useful. The Permanent Bureau would be pleased to make available other trilingual Model Forms in the same format (English / French / one of the official languages of a State Party). States that are interested in producing a Model Form with (one of) their official language(s) available as fillable PDF documents are invited to send to the Permanent Bureau a document in MS-Word with the text of the Model Form in the relevant official language. The Permanent Bureau will then create the fillable version and upload it onto the HCCH website.

Please feel free to comment further on the above:

B. Request Form (Art. 3)

- 57) The first box on the Model Form asks for the "[i]dentity and address of the *applicant*" [emphasis added]. The Permanent Bureau's interpretation of the word "applicant" is that it refers to the *forwarding authority* referred to in Article 3(1) (see Service Handbook, paras 112-114). Does your State agree with this interpretation?

YES

NO – what then is the interpretation of this word in your State?

The plaintiff in the proceedings

Counsel representing the plaintiff (if different from the forwarding authority)

The court where the proceeding is taking place in the requesting State

Other – please specify:

- 58) In Conclusion and Recommendation No 48, the 2003 Special Commission unanimously approved the suggestion that the information regarding the forwarding authorities and their competences be included in the Model Form. Does your State systematically follow this Conclusion and Recommendation when sending a request for service?

YES

NO – why not?

C. Certificate (Art. 6)

59) Article 6(4) indicates that the Certificate shall be “forwarded directly to the *applicant*” [emphasis added]. The Permanent Bureau’s interpretation of the word “applicant” is again that it refers to the *forwarding authority* referred to in Article 3(1). Does your State agree with this interpretation?

YES

NO – to whom then do(es) the Central Authority(ies) of your State or the authority designated for this purpose forward the Certificate:

The plaintiff in the proceedings

Counsel representing the plaintiff (if different from the forwarding authority)

The court where the proceedings are taking place in the requesting State

The nearest Embassy representing the requesting State

Other – please specify:

II. E-service

A. In strictly domestic situations

60) Does the law of your State, in strictly domestic situations, allow for documents to be served by fax, e-mail, SMS, the posting of a message on a website, or by a similar modern technology?

NO – are there plans to introduce service by using such technologies?

YES – please specify:

NO

YES – please specify:

a. the legal framework and practical circumstances in which such technologies may be used (please describe for each if necessary):

In accordance with the legal framework regulating service in civil and commercial matters, the service of documents (summons, rulings, conclusions and other official files) is carried out, as a rule, by delivering the letter to the person to whom it is intended. Additionally, the laws prescribe that the service is done by post, telefax or e-mail, or that is done by an authority through an official person or through the person registered for physical or electronic delivery.

As regards the legal framework, it is important to mention that a set of laws regulating these matters has been adopted in Montenegro. Namely, the Law on Electronic Signature regulating the use of electronic signature in legal transactions, in administrative, judicial and other procedures, was adopted in 2003. The Law prescribes that the receipt of electronic document with electronic signature or advanced electronic signature cannot be refused only because it is made in electronic form (apart from exceptions listed in the Law).

The Law on Electronic Document was adopted in 2008 and it regulates the method of use of electronic documents in legal transactions, administrative, judicial and other procedures, as well as the rights, obligations and responsibilities of companies, entrepreneurs, legal entities and individuals, state authorities, state administration authorities, the bodies of local self-government units and authorities and organizations exercising public powers in

relation to the electronic document. In line with this Law, electronic document has the same validity as the document made on paper. Electronic document for the needs of legal entity and an individual can be used and circulated only based on explicitly and freely expressed will to accept e-document for personal and business needs and other relations. Legal entity and an individual cannot refuse an electronic document only because it was made, used and put in circulation in electronic form. In accordance with this Law, electronic document is deemed received if it has been received by the recipient in person, by the person authorized by the recipient to receive the document or if received by the recipient's information system or the information system of the person the recipient authorized to receive the document. The time of receipt of electronic document is the time when the electronic document sent entered the information system of the recipient or of the person authorized by the recipient. The confirmation of receipt of electronic document, if requested, must be made by the recipient within a term indicated by the sender in its request for delivery of notification of receipt. The recipient must confirm receipt by an action confirming receipt in material form, including automated systems of receipt confirmation. Electronic document sent is deemed received at the moment when the sender receives the receipt confirmation from the recipient.

- b. whether a secured transmission has to be used for any / each of these technologies, and if so, which kind of secured transmission is used in practice:

In practice, the method of service depends on the nature or importance of the documents which need to be served. Thus, the complaint, response to complaint, the summons, legal remedy, judgement and ruling against which interlocutory appeals are allowed, shall be delivered to the party in person or to its legal representative or attorney. The other documents shall be delivered in person if that is explicitly prescribed by the law, or if the court deems that increased caution is necessary due to attached original documents or for some other reason. (Art. 136 of the Law on Civil Procedure)

- c. if and how service upon the addressee is acknowledged or proven in such circumstances:

The Law on Civil Procedure prescribes that, when the documents are served by e-mail, it shall be deemed that the documents are served at the moment when the document is sent by e-mail. (Art. 127) As regards the petitions to the court, if the petitions have been sent by e-mail, the time of delivery to the court shall be deemed to be the time indicated on the verification of the advanced electronic signature. The Law also prescribes that if the petition was sent by telefax, the delivery date shall be deemed to be the date on which the fax is received in the court. If the petition was sent by telegraph, it shall be deemed submitted within a deadline, if the petition with the same contents is delivered subsequently to the court or sent to the court by registered mail within three days from the date of delivery of the telegram to the post. (Art. 109)

The Action Plan for the Implementation of the Strategy for the Reform of the Judiciary of Montenegro 2007-2012 provides also for reform of the system of international legal cooperation. Thus, the Law on International Legal Assistance in Criminal Matters was adopted in December 2007. The Action Plan provides also for the adoption of the Law on International Legal Assistance in Civil Matters (in 2009) which will, the same as the previous one, comply with the EU

law, good practice and the recommendations of the Council of Europe. Bearing in mind the nature of international legal cooperation, the planned law will also define the methods of communication with competent foreign authorities in more details, as described in the Law on International Legal Assistance in Criminal Matters (Official Gazette of Montenegro, No. 4/08).

At the same time, proper implementation of these laws and improvement of the efficiency of the work of competent judicial authorities in this field requires the improvement of technical conditions as well – including the supply of computer and other equipment in order to speed up the activities of international judicial cooperation.

A few words about the communication of the authorities competent for international legal assistance

In practice, communication of the competent state authorities regarding legal assistance in civil cases rarely takes place directly. Such cases are prescribed rarely and only in exceptionally urgent procedures (e.g. bilateral agreement with Italy/See answer to Question 2, No. 11 of the list). In practice, the competent authorities of both states communicate mostly through the central authorities for transmission of letters rogatory.

As regards communication through diplomatic channels, the Law on Civil Procedure provides for communication through diplomatic channels (the service of documents included) as follows:

"Art. 130 When the documents are to be served on persons or institutions abroad or on foreigners who enjoy the right to immunity, the documents shall be served through diplomatic channels, unless otherwise is stipulated by an international agreement or by this Law (Article 143).

If the documents are to be served on the nationals of Montenegro abroad, the documents may be served through the competent consular representative or diplomatic representative of Montenegro performing consular affairs in the relevant foreign state. Such service is valid only if the person on whom the document is served agrees to receive it.

Art.131

The service on a legal person the registered office of which is abroad may be done also through its agency and/or representative office in Montenegro. (The Law on Civil Procedure of Montenegro)

JUDICIAL INFORMATION SYSTEM (PRIS)

In 2007, Montenegrin government adopted the Strategy for the Reform of the Judiciary – a five-year project containing the guidelines for the process of reform of the entire judicial system. Among the priorities for the strengthening of administrative capacities in the judiciary, it has been planned to set up a functional judicial information system which will, inter alia, increase the efficiency and the quality of the work of judicial institutions. The final stage of the implementation of this system is currently underway. It already operates in a certain number of courts but not completely. The issue of ratification of this Convention will be considered simultaneously with the completion of implementation of the judicial information system. We believe the setting-up of the judicial information system will eliminate the problems regarding the simplified service and that thereby necessary conditions which will greatly facilitate accession to this Convention will be fulfilled.

- 68) In Conclusions and Recommendations Nos 60 to 62, the 2003 Special Commission noted, amongst other matters, that the Service Convention does not on its terms prevent or prescribe the use of modern technologies to assist in further improving

its operation and that States Parties to the Service Convention should explore all ways in which they could use modern technology. Does your State think that the use of modern technologies under the Service Convention should be further encouraged by the adoption of:
